## THE HISTORY OF OUR FARM

With knowledge of German and Dutch doors of finest of Europe was faced with a hole for me. Several times I visited min such breeders, as **Jos van Limpt-Klak "De" (Reusel-Netherlands)**, **Comb. Kuiper (Hoorn (Northern) Netherlands-based subsidiary of the brothers Janssen)**, **the brothers Janssen (Arendonk-Belgium)**, **Norbert + Philip Norman (Knokke-Heist)** -kilkukrotni champions of Belgium, **Jos van Vliet-Netherlands**, **Hans Eijerkamp (Zutphen-Netherlands)**, **Tonny Juriens (Vorden-Netherlands)**, **Hans Bruggeman (Eelst-Netherlands)**, **Franz Schlederer (Lassee-Austria)** -min: as the only **2 x 1-y** in the country **konk. National flight Brussels/1000 km/, 1 and 2 pilot country /1987-1988/proportion, /Verona-1990/** in the Olympic Games in Italy **Bertus Camphuis**, etc. (**Eefde**) -wyhodował(**the champion of the Netherlands 1990 min. The "Oude 05", "James'a Bond'a", "Wonderboy'a 5" and " 06"**) ...  
and many, many other. With some real przyjaźni thread began.

After seeing the in/on the farm I decided on the introduction **"Janssenów"** from **Kuiper of Hoorn** (head keeper North Holland), because there I found this, which has unsuccessfully search: rasowość, performance and class, as well as warm and sincere friendship and help. Since 1989, gradually sprowadziliśmy made several dozen pigeons, after which the offspring gets 1-e contests not only us, but also to other farmers in Poland.

Sprowadziliśmy min. 2 x best Aviator the in the North of the Netherlands **H87-1844402** (great-grandson of the legendary **"", "Jonge Jonge Scherpe Raket", "Velo" and "Rakkertje"** at the same time), whose father was sold to Japan. A granddaughter and prawnuków have also the famous **"Schouwman'a" of the brothers Janssen** prawnuków legendary, **"019" /18 x 1** contest/and **"Jonge Merckx'a" /15 x 1**/and the offspring **"Golden Pair" Kuiper: ("Ijskop" x "Vos 512")**, son of a female **H89-1086122** (1-y given.-17 000 wkł. pigeons) and Red male **Vos "57"** (found the best pilot for 500 km in the history of the branch in Hoorn -his grandson pretendował for the bronze medal kat.And at the Olympic Games in England in 1999, is **7x1, 3x2, 1 x 3 backplane** ).

On our pigeon House is a granddaughter of the famous Belgian pigeons, which in the past 2-years won 2 cars, as well as the offspring of samiczki **' Superduivin 409 '** (as it was 70 000 DM, although this has not been sold).

Cooperation with Roelofem and Roeli Kuiper continues already for 12 years, piling up not only on niwie. The Netherlands we visited dozens of times, to know their reality "from the" back office ", however, the ultimate objective of every travel was flat and cordial none p. Kuiper in the northeastern Dutch Hoorn. **As they come to us through all these years regularly 3-4 times a year, landing with both good pigeons, and tips for breeding.**

Also true in 1995 on our pigeon House rozplodowy [H95-1742579](#) , półsiostra bird, which in season 1995 won the title best Aviator kat.(A) (min. 5 x 1 konk.). This pigeon came **at the same time on a 4-figure entries in Holland in kat.A.** In 1999 he moved to the us in its "" mazany (schaelie) son [H99-2177668](#), and recently the owner changed the magnificent building of blue samczyk [H95-1742419](#) the półbrat and son rozplodowca **No 1 in Hoorn- "Zwartoger'a 115"**. Both birds see film, video **"Comb. Kuiper-Hoorn "** distributed before several years ago **Koerier** by the company in Germany and the Netherlands.

The summer of 1991, being in Vorden-Eefde, several spotykałem are privately with **Bertusem Camphuisem** , his family and friends. The result of such meetings by's glass of good beer is red – mazany (so-called. " Samczyk Schalie") [H90-1979450](#) and Red-aizoides ([H91-1632786](#)) niece of the old "05" ("Oude 05"-H77-476105)-winners 9 first given and for the best Średniodystansowca (kat.(B)) of the Netherlands in 1981, the two birds associated with pigeons Kuiper very well check the in rozplodzie.

To our perchery was also półbrat-widely described as a "Leuk 95 Claque", as well as [H91-1967972](#) , samczyk, swift Fox, which released many great breeders in Poland – particularly in associating with the "decoration" our pigeon House: nakrapianą **"Setka" (PL04-90-15100)** Of his time, said "Płowego", wanted the Kuiper take back to the Netherlands, due to its quality, of Rams. I noted that I replaced here by way of indication only, -offs that what we have.

*The old swift Fox (H91-1967972) of the brother of the "Mooie95"*

In/the pigeons associated are further or closer pokrewieństwo (as appropriate), steam helps us connect Kuiper, coming to us every year. The given odchowywane relevance kojarzeń provide **beautiful and healthy young**, from which the Kuiper from time to time, it takes a little push to the Netherlands. **Here any comment seems unnecessary.**

## OUR PIGEON BREEDING

**H91-1967972 "the old swift Fox"** ~~skok~~  
~~skok~~

**To "Old-Breasted"** is absolutely one of the most valuable racing pigeons breeding. Has a lot of fantastic pigeons breeding – particularly in **"SETKA"** to mate with **PL04-90-15100** . Min ' **05 "Black** . Of **No 1** rozplodowiec Kubisia and Richard Wołowskiego of the Bogatyni their well-known sons, but not only " **Romario** said: m. Woźnickiego is the great-grandson of , or if their was a former kol. Jana Sosnowskiego with Wolbromia (the grandson), who (as informs sam owner) in one of the seasons as the yearling collects **13 competitions** for his

Lord (!). Such examples are much, much more.

Red **1968011 H91-**

**PL04-92-5655 "Baxter Finger"** is the flagship samczyk the entire herd. Lotowany only, as młódek **5/5 given**:. Due to the nature of intelligence, and in the very rare good breeding, destined directly to the service. In this case, it was difficult to be confused: made the whole battalion of the quick and beautiful birds, both in first and subsequent generations. Its features are visible shall make even in 4 and 5 "generation (in 2001 his daughter arrived in the Netherlands in the pigeon House rozplodowy, Kuiper).

It is almost a mirror image of his father: **' Baxter ' H89-1086227**, which is next to the blue samiczki **H89-1068225** was the first imports from the Netherlands. The pair

**PL04-92-5655 "Baxter Finger"**

launched a farm in the mountains, Skawicy and band of the successes of our brother Stanisław Black of Amphibians.

Studying family tree ' **Baxter 5655** ' can be seen that the bird has its roots dating back through the **Vos'a ' 57** ' (the best pilot for 500 km in the history of the branch in Hoorn, Netherlands) to ' **Ijskop "B73-6276340** (son of legendary "**Jonge Scherpe" B72-6747269**), ' **Kweekduivin van 69 " B69-6054511** and the famous "**019**" (18x1 konk.) Brothers of Arendonk.

Father (red **H87-1844402** – in 1993r. also travels to Skawicy) in/in samiczki to "**225**" is nothing like 2 x As a circle in the North of Holland, settled in a straight line from such pigeons, as: "**Jonge Raket**" "**Velo**", "**Jonge Scherpe**" , and **Vos van Boven B78-6727167** is a leading reproduktor Janssenów from the end of the 1970s.

And the mother of our to "**225**" is samiczka, in which the stunts swimming hot blood **B59-6236207** known more as a , "**Bange van 59**" znawcy Janssenów know what this means ...

And here's two daughters described above of "Baxter" x "225"

Can something about say the breeder of the laps. jeleniogórskiego, kol. Mouse and Wołów in which a team book place sons, **"Falcon"** bądź grandchildren. The same is with the breeders with material from these minutes in Międzyrzecz. In 2000 uhodowaliśmy the 2 daughters to flights: one gets a **4/4 konk** probably. **5/5**, second in the last flight of a disastrous (rain and fog). **In the mountains the weather grzebie for years, even najtwardszych veterans.** One of the most important pilots of the oddz. Chrzanów in recent years was Red samczyk Stanisława Black is **PL0113-99-4701**. Wyhodował go brother directly with **"Falcon"** our daughters. The pigeon, **11, given** goes as a yearling. including:

- 3e place involving 3571 pigeons
- 5e place involving 3513 pigeons
- 8e place involving 2401 pigeons

In the year 2001, as dwulatek won 12 competitions, including inter alia:

- 6e place with 2940 pigeons
- 22e place involving 2481 pigeons
- 8e place involving 2386 pigeons
- 2e place involving 2413 pigeons
- 2e place involving 2876 pigeons
- 4e place with 2950 pigeons
- 1e place, involving 2578 pigeons
- 2e place involving 1669 pigeons
- 9e place involving 2293 pigeons

This explicitly reliable Aviator dyktował tempo for routes 200-550 km of virtually every Sunday. Despite the favourable rating in kat.(A) and (B) (bezapelacyjnie 1-e-space mode. Okręgowej), represents it at the exhibition Was a strong district of Katowice-coeff. 19,38 in kat.(D). Thus, the sensational red male within two years he won 23 konk., of which 11 were in the top ten!

## OUR PIGEONS BREEDING c.d.

Among the pigeons Janssen never brakło białolotów. This is less than the typical colour: "**Old Carp**" of 91r., under the terms of the contour of a complete copy of its mother is the original "High-speed" "**Schouvrouw**" **B86-6716818** (this was the detail-the legendary "**Schouwman**" **B76-6371905** of the brothers Janssen of Arendonk, is her father).

Direct progeny "**Old Pstrej**" often occupied the highest place of list entries. Her daughter has released at kol. John of Wolbromia samiczkę Sosnowskiego '**Kasię**' "**PL0205-98-208**, which in 99r. **10/10** givengoes. ( **3** giventhe Opole –., **3** konkNowa Sól is.) and cups:

**The old Carp from 91.** 

-2 yearling oddz.

-3 samiczka oddz.

-3 pilot oddz. A Cat.

the **2 Aviator** brother of the **cat.A5 deposit for Standard** ( -as you can see "is not only good, but beautiful"), Wołowskiego his utalentowane grandchildren. Both represent their constituency in the Exhibition Ogólnopolską 2002.

**H93-2477731** *sklepek*

**H93-2477731 "Long"** is a magnificent building of the Red samczyk-PR. grandson **The Golden Pair** Kuiper'a: **Vos'a Ijskop 12 x 229** . About "parce the in same superlatywach commented in the summer of 2001. in Skawicy Dutch keeper Geert Jan Houten (coming after reception młódków). Together with his father was a very strong tandem based on gołębiach Kuiper'a, which for the next seasons ' zamiatał ' cups and diplomas, in placing. win a general Championship in their Division (Afdeling K). Largely contributed to the red son w/in parks and its progeny, it also młódki with the circle of his were the object of interest.

**"731"** our several years ago, wypożyczał the Amphibian brother Stanisław. The fruits of this experiment then waited only a few **"731"** months: it's son, which 3 consecutive Sundays goes 1-y competition in strong oddz. Chrzanów. , Another former red guards Janssenów this **H93-2796417** called **To "The Eagle"** .

**H93-2796417 "Eagle"** *sklepek*

Assessment in even the most dry champions, visitors to our farm, bird has everything should have a good zip pigeon. His eyes tryskają 's intelligence, and in życzliwych opinions of fellow, lacking only the skills of speaking. A large part of the customer is particularly happy with his offspring; min kol. Andrzej Karpiński from Kiełcza, which **superrozplodowcem No 1**

is just a red son of "Eagle" in associating with the Dutch "Oude 05" niece b. Camphuis'a. This pigeon is on an annual basis associated with multiple samickami by "the Stallion", in giving invaluable offspring.

In the year 2000 złączyliśmy "Eagle" of pstrą **PL04-94-94912** (daughter of "488" old białolotka). Flights to intend that anyone should 2 light-flecked, bliźniaczo-like Sisters of "415" socket: "416" and. Better "416" appears to be (the best młódek of the branch), the **5/5** probably winning **konk.: 266,44,13,10 6** and (for the whole of the oddz. only 6 młódków won the full limit competitions – including up 2 our). Her sister while he **3/4 konk** only. **41,8**, but **3** and in the Branch Office. As roczniaczka dorzuca to them in addition subsequent items **4** lists of Branch Office: (175 km-'s sunny) **3**, (Świnoujście 600 km – rain and fog) **3**, (600 km-1727 m/min – rain and strong wind). Another brother of the same associate ("**406**") the lands of the **3**flight of Kluczborck, as you - Branch Office.

Selected here, the facts are not pure cases: the mother of the best Polish inscribed on the Olympics in Blackpool in 1999. "cat. (A)" (a candidate for the bronze medal- **7x1, 3x2, 1 x 3 backplane** - in England officially offer its purchase has Herboots from Belgium and the Netherlands Eijerkamp) was just pólziostra "Eagle", where the father of two birds is red **Vos" 57 "** is the best pilot for 500 km in the history of the oddz. in Hoorn. In turn the father of **Vos'a ' 57 "** was **Vos" 69 "** -a full brother **Vos'a" 512 "**, which is half "Golden Pair" Kuiper'a. And here we are already using such over Janssenów, as **B67-6282027 the "Oude Geelger van 67" 15 first contests** -winners (!), or "**Jonge Scherpe**".'S mother "**Eagle**" (sold to England) and her sisters flew quite "out": **1** minutes in **konk**circle. **17 000 4** goł., **konk**do. **12 000** goł., but not only ...

\*\*\*\*\*

Now that napomknęliśmy on we were born here after one of the daughters of Olympians:

**PL024-98-4070** ....

**PL024-98-4070 "Olympian"** daughter is **Olimpijczyka with Blackpool ' 99** (both his father-line the "Oude Geeloger", "Oude Scherpe" and the "Stier", and mother-line "Jonge Merckx" and the "Oude Witoger" come directly from the Netherlands from the Comb. And our Kuiper) "**Hundreds**". A strongly built samiczka very zgrabnej contour and conducive , rozplodowym eye.
