**Willi Heinz and Jürgen Ritz**

**Jüchen - Who has the opportunity to study the papers of the pigeon world, encounters with constant regularity and over again in the name of the Ritz. Many sports fans have been trying for years or decades, at a similar reputation, but it seems to be an impossible task to get at this level of recognition.**

### **What is the secret of this popularity?**

You can bring it to a single common denominator: Vererbungsstarke pigeons! They have made Heinz Willi Ritz to the person he is today. Jürgen Ritz takes an important legacy. The origin is now back soon 40 years and is inextricably linked with the famous Belgian pigeon breeders in the short and medium-bound: The Janssen brothers from Arendonk and Karel Meulemans. With the pigeons that experienced breeders Heinz Willi a meteoric rise, especially the father of the Ritz-colony, the legendary "Vos 74", coined the pigeon world than almost any other bird.

The combination of Janssen and Meulemänner in 70er years revolutionized many hitherto known price lists and championship tables. These results are flashed around the world, and since then thousands of interested buyers to take flight miles, hours of sitting in confined aircraft cabin, Klimaumschwünge and time shifts in order to see these animals, feel, and buy if possible. Especially Asian sports fans like to take this effort into account.

Heinz Willis main concern is the rapid pigeon, the dove, to fly the head and which wants to place himself with indomitable will to win on the first page of the list and as far up there!

### **Each year with new pigeons!**

Because of its superior breeding work Heinz Willi Ritz will be snapped up every year as the best racing pigeons, sometimes even out in the middle of the trip. This is also an explanation for his RV at the championships not always be the pinnacle of the best pigeons still change before the Endflügen to other parts of the world. All the more remarkable, therefore, the breeding capacity, year after year with a young team to build on the achievements.

### **Red stands for dynamic!**

It should be determined not undertaken any excursion into the theory of color, but the red color since time immemorial exerts a tremendous fascination for the people. We think of the Egyptians in the East, to the Chinese in the Far East, to the Incas in South America - or in today's Brieftaubenzüchter! The color suggests more than the imagination, inspires them. In pigeons transferred in the truest sense of the word.

### **B 74-6696357 - A legend sees the light of the world!**

1974 - This year, Heinz-Willi Ritz remains forever etched in my memory. He had been since 1967, contact the Janssen Brothers, Arendonk, especially to Adriaan, whom he described as one of the most gifted Brieftaubenzüchter of all time. There have been some of Janssen-bred pigeons in Jüchen. But some still missing: The Reds! It is precisely the exercise also Heinz-Willi Ritz a tremendous fascination. He had repeatedly raised Adriaan it. Finally, in the spring of

1974, the wish was fulfilled. "We have a red for you," with these words he has already been welcomed at the entrance. So he came to his "Voss, 74", which should prove in the following period when the outstanding sires in general.

A stroke of luck, a coincidence? Even breeders like Adriaan Janssen sometimes stood in astonishment before the whims of nature. A young red bird had becirct one hen and 11 year olds from this random pairing of the red "357 fell. With the feeling of Christmas and birthday in a Heinz-Willi went back home. A few months later, the mother of this bird's been sold. These were a daughter of the old "bull". Today we know that should have united in this little red all the good genes, because the "Voss, 73" later, brought not one as close to the "Voss, 74"!

In order to "Voss, 74" around Heinz-Willi Ritz built on a tribe, which today still stands for excellence. One example is the bird 01055-03-367. A grandson of 01949-86-100. Which in turn is a son of 01055-81-29. And this is a grandson of the Red "Voss, 74".

3x 1st Bankruptcy	6x 1st Bankruptcy

There are also single best pigeons in the aged and the young. These excerpts from statements about the 20 year period show the whole class, which resides in the Ritz-primitive tribe. Because really speak of a "tribe" must be in the case. The old "100" is the basis for his grandchildren to strengthen this base and are responsible for the achievements of the last two years. The "100" itself is the product of a very selective mating. None other than Jan Grondelaers time there at the crucial tip that "29" to set the 01055-83-251. The grandparents of the "29" all came from Arendonk, and the "251" points out a few times in her pedigree, "Voss, 74", including the "357" grandchildren 01055-80-533 and 01055-76-781! For this tip Heinz-Willi is still grateful.

#### What pigeons adjust these primitive Janssen?

A fantastic supplement was Louis Wouters W hen 89-6366830. With it, the "100" 01055-92-877 the bird, which could handle numerous brought top prices, including a 1st Bankruptcy against 2736 pigeons and 8th Bankruptcy against 18,846 pigeons. He and three sons take care of offspring.

A very good supplement was the aforementioned "Meteor" line of Hans-Theo Huth. From the origin also Janssen. Today they are barely in existence, since they were fantastic deals for the Far East.

### Further, the "Orleans" line.

"If you want to have in the long term success, you reinforce, with pigeons, you have to beat their own". At this rate in January had once Grondelaers Heinz-Willi given for the journey. It is precisely this knowledge, he heeded the past few years.

In 2000, the bird flew 03379-98-887 the 1 Bankruptcy of Orleans. Not any 1st Bankruptcy, but the 1 against 41,713 pigeons of the 16th District! Shortly afterwards, the "Blue Orleans moved" by W. Offermanns after Jüchen, and with him his parents and a sister. The first reinforcements from the environment.

2002 hosted the 16th District of the District of flight from Toury. In the game, more than 42,000 doves! Sovereign of the bird won 01013-00-1526 H. Pennings, third place went to the Community Berretz 06651-00-54 the blow-Lenzen & Son. Both birds could acquire Heinz-Willi.

### The best crossing? Our own line!

The old Maurice Delbar Heinz-Willi Ritz had once given to understand that the best crossing is one's own line zurückholt it from where it was crossed with the best results.

### Ritz-doves and Beyers feed:

#### Perfect combination for 1 Bankruptcies and top prizes!

The many 1st Bankruptcies, and the numerous top awards speak for exceptional pigeons, the outstanding leadership and balanced in all areas of nutrition. This makes sense as the complement Beyer Plus products, the diet is so important is this basic diet with Beyers feed. A balanced diet, each carefully tailored to the discipline and the journey causes the outstanding performance of the deaf body. Pay only the listed results. For years, Heinz-Willi Ritz is in this respect, no compromises. Of course, the young pigeons with the start of the autumn tour will be so directed. It says much for such care that address the pigeons completely out of direction.

Over 30 years with the same basis for success: Heinz-Willi Ritz has done it. His son, Jurgen is preparing to enter into those footsteps. A heritage, it shall not, not yet. For, according to Heinz-Willi glowing remains the Brieftaubenzüchter fever. The name "Ritz" is a brand ...

Klaus Kühntopp, 2006

> Food plan by Heinz Willi and Jürgen Ritz

## Pension plan by Heinz Willi Ritz with Beyer's elite - Enzymix

### Rearing:

- 7 / 40 Enzymix Modern farming system

### Travel:

- Saturday & Sunday 7 / 48 Enzymix Recup
- Monday through Wednesday 43 / Enzymix Structure
- Monday - Friday 7 / 47 Energy

### Mauser:

- 7 / 22 Enzymix Mauser methionine

### Water:

- Breeding and molting 3 times a week Beyers Herba zyma 5 ml to 2 liters of water
- Plus Beyers Bioflorum over food
- 2 times per week Chromix if there are young in the nest. (Important)

### Travel: (Alt & Jung - Travel)

### Return:

- 1 teaspoon Beyers Electrolyte Plus
- 2 tablespoons Beyers Gluco Sport on 3 liters of water

### 2-3-4 Day:

- Beyers Herba zyma = 1 cap of 2 liters of water

### 5-6 day:

- Beyers Gluco Sport = 1 tablespoon to 2 liters of water

Feeding 5 days:

- Beyers Amino Plus = 1 tablespoon to 2 kg of feed

Feed 6 days:

- Beyers Mineral Plus = 1 tablespoon to 2 kg of feed

Swimming:

- 2 x per week with Beyers Fino bath salt bath.
